FCC MAIL ROOM

Dear Chairman and Commissioners,

I would like to take this time to comment on the proposed rule making on low power FM radio service. although some may agree with this proposal, it will ultimately be a detriment to the radio industry. The small market stations are already meeting all of the supposed advantages of licensing LPFM stations. And by allowing LPFM stations into the market the FCC is freely opening the doorway for increased piracy to fill the airways. I hope that your decision on LPFM will be to not allow the proposal to become active.

Thank you for your time.

Sincerely ,

Rick Rhodes
